SUMMARY

Senior full-stack engineer with 13+ years delivering web platforms for Meta, Crédit Agricole CIB, Accenture, and the US National Institutes of Health. Deep specialization in PHP and Drupal 8–10 (Symfony-based) with modern React/TypeScript frontends; Acquia-certified, DrupalCon speaker, and long-time open-source contributor. Recently completed an M.Tech in Software Engineering (CGPA 8.22/10) alongside part-time consulting. Based in Berlin with Goethe-certified B1 German.

PROFESSIONAL EXPERIENCE

Senior Consultant, BizIntelligence Technologies — *part-time, alongside M.Tech* 03/2024 – present · remote

- Architected a client-side SSL-certificate authentication system (FastAPI, React Native), replacing password/OTP flows with cryptographic identity verification for a privacy-focused platform.
- Migrated a legacy Drupal 7 application with 200+ modules to Drupal 10, writing custom migration scripts for complex data structures, business rules, and integrations.
- Built an encrypted personal data vault with client-side encryption and granular, revocable permission-based data sharing.

Parental Leave 11/2023 – 02/2024

- Parental leave following the birth of my child.

Full-Stack Engineer, Meta — *contract via Alpha Net Solutions* 03/2023 – 10/2023 · Singapore

- Maintained and modernized privacy-compliance tools used across Meta's global privacy infrastructure (React, TypeScript, Hack), supporting GDPR and CCPA adherence.
- Merged 90+ pull requests in Meta's codebase: bug fixes, performance optimizations, and migrations of legacy tools to current engineering standards.
- Optimized report-generation systems, improving processing speed and reliability for compliance workflows.

Software Engineer, Crédit Agricole CIB — *contract via Adecco* 05/2022 – 03/2023 · Singapore

- Rebuilt the corporate website (ca-cib.com) as headless Drupal 9 with a Next.js frontend, cutting page load times from 6–8 s to 1–2 s.
- Automated the deployment pipeline with Jenkins, reducing deployments from 3–4 h to 30–45 min and downtime from 1 h to 5 min.
- Maintained the organization-wide intranet portal serving personalized content and data.

Lead Engineer, QBurst Technologies 08/2020 – 05/2022 · India

- Led a multi-site Drupal 9 platform for the US National Institutes of Health (NIH) on Acquia Cloud, meeting HIPAA requirements, with automated deployments via Acquia Pipelines.
- Built a counter-terrorism portal for the Inter-Parliamentary Union: headless Drupal with a React progressive web app and custom geopolitical maps (QGIS).
- Established CI/CD infrastructure from scratch (Jenkins) across 10+ projects deploying to AWS and dedicated servers.
- Managed a team of 6 developers; conducted technical interviews, project estimation, and client consulting.

Senior Analyst, Accenture 01/2018 – 08/2020 · Singapore

- Led Drupal development for the Singapore Pools website rebuild (Drupal 7 → 8), integrating Java backend services on a high-traffic betting platform.
- Improved site performance 1.8× through Redis caching.
- Provided on-site Drupal consulting for Telekom Malaysia; expanded to React development and mobile app maintenance after corporate training; mentored junior developers.

Drupal Developer & Technical Lead, Axelerant · Zyxware · Hello Infinity (co-founder) 06/2012 – 09/2017 · India

- Delivered 15+ Drupal projects (e-commerce, multilingual) leading teams of up to 5; co-founded Hello Infinity, owning technology decisions, infrastructure, and client relationships.

EDUCATION

M.Tech, Software Engineering , BITS Pilani (work-integrated)	2024 – 2026
CGPA 8.22/10. Dissertation: “Road Quality Assessment System Using Computer Vision and GPS-Based Mapping” — see Projects.	
MicroMasters, Statistics and Data Science , MITx (Massachusetts Institute of Technology, via edX)	2020 – 2022
Graduate-level probability, statistics, data analysis, and machine-learning fundamentals.	
B.Tech, Computer Science & Engineering , University of Kerala	2008 – 2012

TECHNICAL SKILLS

Languages: PHP, TypeScript/JavaScript, Python, SQL
Backend: Drupal 8/9/10 (Symfony-based), FastAPI, REST & GraphQL APIs
Frontend: React, Next.js, Tailwind CSS
Testing: PHPUnit, Behat, Jest, Playwright
DevOps & Cloud: Docker, Jenkins, GitHub Actions, AWS, Acquia Cloud, NixOS, Linux
Databases: PostgreSQL, MySQL, Apache Solr
AI Integration: LLM APIs, Model Context Protocol (MCP), AI-agent workflows

SELECTED PROJECTS

Road Quality Map , M.Tech dissertation · roads.anishsheela.com · open source	2025 – 2026
- End-to-end pipeline turning dashcam video into an interactive road-condition map: FFmpeg frame extraction, Tesseract OCR for GPS telemetry, a Swin Transformer classifier trained via active learning, and OpenStreetMap segment matching. - Built a gamified crowd-sourcing annotation platform (annotate.anishsheela.com) to label thousands of training frames.	
ApplyQuest , github.com/anishanilkumar/applyquest · production	2026
- Full-stack platform (FastAPI, React/TypeScript, PostgreSQL) for job-search tracking, with analytics, a Firefox extension for one-click job capture, and scheduled email digests. - MCP server that lets AI agents reconcile tracked applications against a Gmail inbox — a production AI-agent integration.	
Content Authenticity Toolkit , github.com/anishanilkumar	2026
Media-provenance proof of concept: register images and PDFs with PGP signatures, plus a Firefox extension that verifies signed media in the browser using perceptual hashing — tamper detection that survives recompression.	

CERTIFICATIONS

Acquia Certified Developer · AWS Certified Cloud Practitioner

LANGUAGES

German: B1 (Goethe-Institut certified), currently studying toward B2
English: C1 — full professional proficiency
Other: Malayalam (native), Tamil, Hindi

COMMUNITY & OPEN SOURCE

- Co-founder, Drupal Kerala — regularly organize meetups and community events; mentor new contributors.
- Speaker: DrupalCon Vienna 2025, FOSSMeet 2025, WordCamp Kerala 2024; panelist: DrupalCamp Pune 2024.
- Contributor: Drupal core and contributed modules (drupal.org/u/anish.a); Malayalam language computing with Swathantra Malayalam Computing (localization for Mozilla, GNOME).
- Maintainer of [phpresellerclub](https://github.com/phpresellerclub), an open-source PHP API library in continuous use since 2012.
